MASTER

Regenerative Medicine and Tissue Engineering

The aim of the Master's program is to provide a multidisciplinary post-graduate training in regenerative medicine and tissue engineering, representing a unique opportunity for in-depth research on innovative and specialized areas of stem cell research and tissue engineering technology.

The advanced level of the course aims to give the basis for the development of a critical scientific approach towards the treated topics. Lectures will be given by over 40 internationally renowned, European and extra-European scientists from the most relevant and distinguished Universities and Research Centres in the field of regenerative medicine worldwide.

The Course will include both on-site and online lessons. Check the program for details at the following link: <https://offertaformativa.unicatt.it/master-lista-master-regenerative-medicine-and-tissue-engineering-44176>

- **Director of Master program:** Prof. Ornella Parolini
- **Scientific Board:** Prof. Ornella Parolini, Prof. Wanda Lattanzi, Prof. Luciana Teofili, Dr. Antonietta Rosa Silini.
- **Management Board:** Dr. Lorena Di Pietro, Dr. Andrea Papait, Dr. Francesca Romana Stefani, Dr. Luisella De Vitis.
- **Deadline for applications:** March 30th, 2022

Academic Year 2021-2022
Master of advanced study
